OUR PRESENCE.

Faridabad Ghaziabad

Gurgaon Greater Noida

New Delhi ,Noida

OUR PEOPLE.

Our people are selected for their customers focus, empathy, initiative and can do attitude communications skill. Guarding servicer provide the vital communication link between all of the Security Service to our customers.

Our training program cover the practical aspects of the role particularly in the area of chemical products, and the environmental aspects of certain processes.

Our security services professionals operate by understanding the requirements of our responsible for the level of customer service that they are providing. Audits are conducted regularly by supervisor and the Security Operations Manager.

MEASURING OUR EFFECTIVENESS.

In collaboration with our customer we adopt a self-auditing process so our people are responsible for the level of customer service that they are providing. Audits are conducted regularly by supervisor and the Security Operations Manager.

PROCESS.

Our integrated approach to Security Services increases our customers profitability and reduces their overheads.

Continuous improvement is at the heart of our relationship with our customers. In order to understand customer culture and business requirements we institute a robust process of data gathering. This enables us to build measure our important program.

. The process of getting to know the customer and understanding their culture is important. Through this early learning we build a working partnership based on trust and knowledge.

. Each MIG SECURITY solution takes into account the customer business needs as well as most effective delivery mechanism, be that self-delivery. Services provided by our own people or services delivered by our partner whose culture and values match our own.

. We work collaboratively with our customers to phase and mobilise the contracts. This process will reflect business needs and ensure a continuity of service to the organization. We capture best practices that evolve from our interaction with customer and the marketplace. Theses experience are integrated into our business solutions. This is the foundation for progressive learning for us, and the start of our continues improvement programme with the customer.

. Our best process ensure the smooth transition of key people who understand and are committed to the customer's business. We appreciated the necessity to comply

With statutory legislation. As importantly for our customers, and for the sustainability of our business, our process provide an opportunity for individual construction, and ensures that we treat people with respect, care and sensitivity.

. The joint Review Board Forms the basis of our continuous re-assessment of our customers needs. We work with our customer to review processes and working practice that increases efficiency and create economies.

ALL MIG SECURITIES employees are invited to suggest improvement to the operation of their sites ,or the environment in which they work, in the INNER CIRCLE NETWORK. Our management team reviews these suggestions regularly, and the ideas are implemented wherever possible.

The best ideas are submitted to our academy of Excellence who then recognizes the efforts of individuals or teams involved with awards.
